

Qualifying Thermostat Models

Residential and Existing Multifamily
Effective January 1, 2020

Models listed below qualify for Heat Pump Control incentives. Eligible thermostats must be able to determine the outdoor temperature and prevent secondary heat source operation at temperatures above 35 degrees Fahrenheit. If you have questions about model eligibility, please contact us at residential@energytrust.org for single family homes, and multifamily@energytrust.org for duplex, triplex, fourplex, townhomes or side-by-side buildings.
